

Amendments to the Specification:

Please replace the paragraph beginning on page 1, line 5 with the following rewritten paragraph:

--Reference is made to commonly assigned, U. S. patent application Serial Publication No. 2005/1050130 published July 14, 2005 (~~Kodak Docket No. 86742~~), entitled "A MEDIA DRYING SYSTEM", in the name of Peter J. Fellingham, et al., filed ~~concurrently herewith~~ January 8, 2004. --

Please replace the paragraph beginning on page 4, line 23 with the following rewritten paragraph:

-- The support structure supports the print carriage above platen 24. The print carriage, typically includes a plurality of inkjet cartridge holders (not shown), each with a replaceable inkjet cartridge mounted therein. The support structure generally comprises a guide rod positioned parallel to platen 24. The print carriage preferably comprises split sleeves which slidably engage the guide rod to enable motion of the print carriage along the guide rod to define a linear printing path along which the print carriage moves. A motor and a drive belt mechanism (not shown) located in right housing 12 are used to drive the print carriage ~~20~~ (not shown) along the guide rod. --
